Trial outline, persuasion points, and immigration points

For those interested in my trial techniques presentation at the October 23 Maryland Trial Lawyers Association criminal defense continuing legal education seminar, here are my handouts for the presentation: Trial techniques overview, criminal trial outline, and introduction to protecting immigrants in criminal court. Also, check out our website, this blog's archives, and our April-October, 2006, blog archives for additional in-depth legal information and analysis that we have been posting for seven years.
