JONATHAN L. KATZ (Admitted in VA, MD, DC)

Dear \_\_\_\_\_:

If you might be hiring a breath test expert, please do the following starting within two days of your receipt of this letter. Ideally, the temperature readings will take place no more than two days apart from each other. Please have a person who can come to court with you (and to whom you have not told about your drinking behavior on the incident date) take your mouth temperature for three days within 10 minutes of the time you did a breath test at the jail. Please eat and drink nothing at least one hour beforehand.

Please use a digital thermometer, preferably one that has been purchased no longer than one month before you have taken the test, and preferably purchased new. Please assure the thermometer is not placed under your tongue and does not touch your tongue, by holding it accordingly by your fingers or lips. Please have the person taking your temperature secure it and not use it for any other purposes, and please have said person bring the thermometer to court with them

Please have the person taking your temperature write down the time and date of each reading, the result, and the brand and model name of the instrument used.

Thank you.

Very truly yours,

Jonathan L. Katz
